

Bath Housing Authority  
Comfortably Home Program

Commonly addressed items include smoke and CO detectors, dryer vents, light bulbs, furnace filters, grab bars, handrails, shower wands, shower seats, drawer pulls, faucets, flooring repairs, step repair, winterizing, gutter work, and thresholds.

The Bath Housing team works with each homeowner to create a customized work plan to meet their needs and preferences. The homeowner makes all of the decisions and *Comfortably Home* takes care of the rest – planning, design, materials, and installation.

The services have a positive impact on health, safety, and peace of mind. *Comfortably Home* has served almost 100 homeowners since 2015 in the greater Bath area. Participants report fewer falls, fewer 911 calls, reduced fire risk factors, and increased independence. One participant said, “We benefited from everything you did for me. You say these repairs were small, I say they were big.”

To participate, contact Bath Housing at (207) 443-3116. The program serves homeowners aged 60 or older that live within 20 miles of Bath and meet income requirements.
